

FilterConfigurationBox

```
graph BT; PlainFilterBox --> FilterConfigurationBox
```

A UML class diagram showing an inheritance relationship. The class 'FilterConfigurationBox' is at the top, represented by a white rectangle with a black border. The class 'PlainFilterBox' is at the bottom, represented by a gray rectangle with a black border. A solid blue arrow points from the bottom of 'PlainFilterBox' to the bottom of 'FilterConfigurationBox', indicating that 'PlainFilterBox' inherits from 'FilterConfigurationBox'.
